Welcome to Flip Flip Hooray!, offering motor skills classes with a clear emphasis on the joy of movement for children ages 2 and up! As an introduction to gymnastics, our program focuses on whole body exercise, including development in strength, flexibility, and coordination, while promoting healthy choices and self-confidence. Classes are structured, but not rigid, so that children can channel their physical energy while learning to socialize with other students in a safe and fun environment.

Our staff, skilled in both gymnastics and child development, begins each class with an opening activity designed to encourage participation and creative movement. Next, our instructors lead the class into "circle time" for some focused gymnastics instruction. Here our friends learn the gymnastics positions and stretch their muscles through a series of theme-related games. Once their muscles are warm, the class is assisted through obstacle courses to facilitate movement and exercise. Each obstacle course provides a variety of both motor skills exercises and gymnastics skills for the class to work through and master. We then end the class with a fun and challenging closing activity, such as parachute, rhythmic ribbons or bean bag games.

Don't let your child miss out on the fun!
